

Bonded NdFeB

Plastic Bonded Neodymium Iron Boron Magnets – Rings

Rare Earth Bonded NdFeB

Rings are available in standard ‘off the shelf’ sizes. Other sizes can be machined or pressed with tooling. As Bonded NdFeB is isotropic, it can be magnetised across the Diameter (D) or through the thickness (H). Radial or multipole magnetisation requires special magnetising fixtures.

Bonded NdFeB Rings			
Part Number	ØD (mm)	Ød (mm)	H (mm)
PNRG 00622	12.5	5.5	3.2
PNRG 00666	12.5	7.16	5
PNRG 00667	18.8	7.16	5
PNRG 00712	25	7.16	5
PNRG 00668	33	7.16	5

General tolerance +/-0.2mm
 Max Working Temp. 120°C
